Short Description
Green Runtz 75%

Type: Runtz is a popular hybrid cannabis strain that results from crossing Zkittlez and Gelato. It is known for a balanced experience, offering both uplifting and relaxing effects. Some sources state it's a 50/50 Indica/Sativa hybrid, while others indicate it may lean slightly more towards Indica.

THC Content of 75%

Description
Green Runtz 75%

- Type: Runtz is a popular hybrid cannabis strain that results from crossing Zkittlez and Gelato. It is known for a balanced experience, offering both uplifting and relaxing effects. Some sources state it's a 50/50 Indica/Sativa hybrid, while others indicate it may lean slightly more towards Indica.
- THC content: Runtz is considered a potent strain with THC levels typically ranging between 19% and 29%.
- Flavor and aroma: Runtz is celebrated for its sweet, fruity, and candy-like flavor profile, with hints of citrus and berries. Its aroma is similarly described as sweet and fruity with hints of spice.
- Effects: Runtz may induce euphoria, relaxation, and uplifted moods. It can also potentially enhance creativity and focus.

- Medical uses: Runtz' balanced effects and high THC content may offer therapeutic benefits. Some users report that it helps relieve anxiety, stress, depression, and chronic pain. It's also been linked to stimulating appetite.
- Appearance: Runtz typically presents dense, vibrant green buds with orange and purple hairs and a frosty layer of trichomes. It's available in several color phenotypes, including Green Runtz, which presents a more classic appearance with a balanced mix of sweet and earthy flavors.
- Terpenes: The unique terpene profile of Runtz, including Beta-Caryophyllene, Linalool, and Limonene, contributes to its aroma, flavor, and effects. Beta-Caryophyllene adds spicy, peppery notes and has potential anti-inflammatory properties. Linalool provides a touch of floral sweetness and may have calming effects. Limonene brings a citrusy zing and may offer uplifting effects.
