Description
Lemon Tree 78%

Lemon Tree is a popular cannabis strain known for its distinct citrus aroma and flavor profile, which combines the sweet and tangy notes of Lemon Skunk with the complex, spicy, citrus diesel notes of Sour Diesel. It is a hybrid strain, often described as balanced, with a slight indica dominance.

Here's a breakdown of what the search results indicate about the Lemon Tree strain:

- Genetics: Lemon Skunk x Sour Diesel.
- Aroma & Flavor: Strong lemon, citrus, diesel, skunky, sweet, tangy, and sometimes peppery notes.
- THC Content: Typically ranges between 17% and 25%, with some reports of up

to 29%.

- Effects: Users generally report a blend of uplifting, euphoric, and creative effects combined with relaxation and a clear-headed high. Some users find it helpful for managing stress, anxiety, pain, and fatigue.
- Terpenes: Dominant terpenes often include myrcene, limonene, and alpha-pinene, contributing to its unique aroma and effects.
- Awards: Won Best Hybrid at the San Francisco and Seattle High Times Cannabis Cup events in 2014.
