MAC 1 is available in various concentrate forms, including

- Live Resin: Made from flash-frozen cannabis plants, preserving the original terpene profile for a richer flavor and aroma.

- Shatter: A translucent, brittle concentrate named for its glass-like texture.
- Budder/Badder: Soft, wax-like concentrates with a smooth, buttery texture.
- Cured Resin: Blue River Terps and The Heirloom Collective offer MAC 1 cured resin, which is a potent and flavorful concentrate created through collaboration with CORE Concentrates and Fresh Connection, respectively.
- Live Resin Budder: JARS Cannabis offers a MAC 1 Pie Live Resin Budder, a hybrid concentrate blending MAC 1 and Pie genetics for a balanced high.

MAC 1 is a well-balanced hybrid, offering a combination of euphoric and relaxing effects. Users often experience an uplifting cerebral high, followed by a soothing body relaxation. Its balanced nature makes it suitable for both daytime and evening use, and it is reported to help with fatigue, depression, chronic pain, stress, and anxiety. However, it's worth noting that the potency of MAC 1 concentrates may cause dizziness or anxiety in some users, especially those with lower tolerance.
