It's often found in concentrate form, such as live diamonds and sauce, and may be a good choice for those experiencing stress, headaches, or migraines,

THC Content 11-17% to 25-30%

Key characteristics of Grape Diamonds:

- Strain Type: Hybrid (50% indica/50% sativa), Nature's Heritage says.
- Flavor: Grape, grapefruit, and propane notes, says Liberty Cannabis.

- Effects: Long-lasting, strong cerebral effects, potentially offering calming body effects, according to Happy Valley Dispensary and Green Treez Company.
- Concentrate Form: Available as live diamonds and sauce, featuring THCa crystals in a terpene-rich sauce, says Liberty Cannabis.
- Potential Benefits: May be helpful for stress, headaches, and migraines, says Liberty Cannabis.
- Terpenes: Myrcene is a prominent terpene, potentially enhancing THC and CBD effects, according to GreenRock Cannabis.
