Short Description
Biscotti 77%

Biscotti is a potent indica-dominant hybrid cannabis strain known for producing a cerebral high that leaves users feeling relaxed, creative, and buzzy from head-to-toe. It is reportedly a cross between Gelato 25 and Sour Florida OG, and some sources suggest it may also be a cross between Motorbreath and G41.

THC Content of 77%

Description
Biscotti 77%

Biscotti is a potent indica-dominant hybrid cannabis strain known for producing a cerebral high that leaves users feeling relaxed, creative, and buzzy from head-to-toe. It is reportedly a cross between Gelato 25 and Sour Florida OG, and some sources suggest it may also be a cross between Motorbreath and G41.

Effects

- Biscotti is known for a balanced high that includes both cerebral and physical effects.
- Users describe a cerebral euphoria that transitions into full-body relaxation.
- The high is often described as "buzzy" and can make you feel relaxed, creative,

and buzzy from head-to-toe.
- The effects are known to creep up on users, so it's advisable to start with a low dose.
- It's often recommended for evening or nighttime use due to its relaxing and potentially sedating effects.
- Some users report feeling sleepy after consuming Biscotti, making it a potential aid for sleep and insomnia.
- It can also provide euphoric and uplifting feelings, enhance mood, and promote happiness.
- Biscotti may also boost creativity and provide a cerebral buzz, making it suitable for activities like art or engaging in conversations.

Flavor and Aroma

- Biscotti has a flavor profile that tastes like sweet cookies with undertones of diesel.
- Some users describe a sweet Italian cookie taste with cinnamon and nut undertones.
- The strain's terpene profile includes beta-caryophyllene and valencene.

Medical uses

- Biscotti is sought after by medical users for relieving symptoms associated with stress, anxiety, and depression.
- It's also a popular choice for those looking for appetite enhancement.
- Its uplifting and calming effects can be beneficial for alleviating tension, promoting sleep, and soothing the mind and body.
- It may help with managing chronic pain, inflammatory responses, and mood swings.
